Technical Data Book
Updating Instructions, April, 2006*

Please refer to the new Table of Contents dated April 2006 that replaces the prior issue dated January 2006.

SECTION	REMOVE	INSERT	NOTES
1	G1820 (1-06) G1830 (8-04) G1840 (1-06) G1850 (1-06) G1880 (8-04) G1810 (8-04)	G110 (4-06) G120 (4-06) G130 (4-06) G140 (4-06) G150 (4-06) G180 (4-06)	Technical Data Sheets G1820, G1830, G1840, G1850, G1880, and G1810 have been renumbered G110, G120, G130, G140, G150, and G180, respectively. Information on the PN16 has been added to G150 describing the Figure 71 Flange Adapter.
2	G1860 (4-05)	G210 (4-06)	Technical Data Sheet G1860 has been renumbered G210.
3	G1917 (8-04) G1919 (8-04) G1922 (7-05) G1550 (8-04) G1920 (3-05)	G310 (4-06) G320 (4-06) G330 (4-06) G350 (4-06) G380 (4-06)	Technical Data Sheets G1917, G1919, G1922, G1550, and G1920 have been renumbered G310, G320, G330, G350, and G380, respectively. Information for operational torque has been added to G310 describing the Model B302 Butterfly Valves. The pressure loss data in Figure 3 of G350 describing the Model 590 Check Valves has been updated.
4	G1911 (4-05) G1912 (8-04) G1914 (8-04) G1918 (8-04)	G410 (4-06) G420 (4-06) G430 (4-06) G450 (4-06)	Technical Data Sheets G1911, G1912, G1914, and G1918 have been renumbered G410, G420, G430, and G450, respectively.
5	G1870 (5-05) G1871 (5-05) G1872 (5-05) G1875 (1-06)	G510 (4-06) G515 (4-06) G520 (4-06) G530 (4-06) G560 (4-06) G565 (4-06) G568 (4-06) G570 (4-06)	Technical Data Sheets G1870, G1871, G1872, and G1877 have been renumbered G510, G515, G520, and G530, respectively. Information for additional fitting type and sizes has been added to G520 describing the Grooved Fittings for Copper Tubing Systems. Technical Data Sheet G560 describes the new Stainless Steel Figure 472 Rigid Grooved Couplings. Technical Data Sheet G565 describes the new Stainless Steel Figure 405 Flexible Grooved Couplings. Technical Data Sheet G568 describes the new Stainless Steel Figure 441 Flanged Grooved Adapters. Technical Data Sheet G570 describes the new Stainless Steel Grooved Fittings.

SECTION	REMOVE	INSERT	NOTES
6	G1895 (1-06)	G610 (4-06)	Technical Data Sheet G1895 has been renumbered G610. The footnote in Table 4 in G710 indicating to contact TFBP for evaluation of Methyl Alcohol and Turpentine has been removed.
7	G1898 (8-04) G1899 (5-05)	G710 (4-06) G720 (4-06)	Technical Data Sheets G1898 and G1899 have been renumbered G710 and G720, respectively.
8	G1900 (10-04) G1910 (8-04) G1921 (1-06)	G810 (4-06) G820 (4-06) G830 (4-06)	Technical Data Sheets G1900, G1910, and G1921 have been renumbered G810, G820, and G830, respectively.
9		G960 (4-06) G970 (4-06)	Technical Data Sheet G960 provides the installation instructions for the Figure 672 Rigid Grooved Coupling for Copper Tubing Systems described in G510. Technical Data Sheet G970 provides the installation instructions for the Figure 61 Flange Groove Adapter for Copper Tubing Systems described in G515.

GENERAL NOTE

The data sheets have been renumbered to provide a sequential numbering system. During this renumbering, there were several non-technical changes made in addition to the previously offered notes.

- The telefax number for Technical Services has been updated from (610) 882-4399 to (401) 781-7317.
- In many places, photographs have been updated.
- In many places, line art has been enlarged for clarity.
- Metric conversions have been changed from italics to parenthetical.
- Metric pipe sizes have been stated in DN "diameter nominal".
- The warranty language has been updated.
